Discovery 150 TP Total Protection

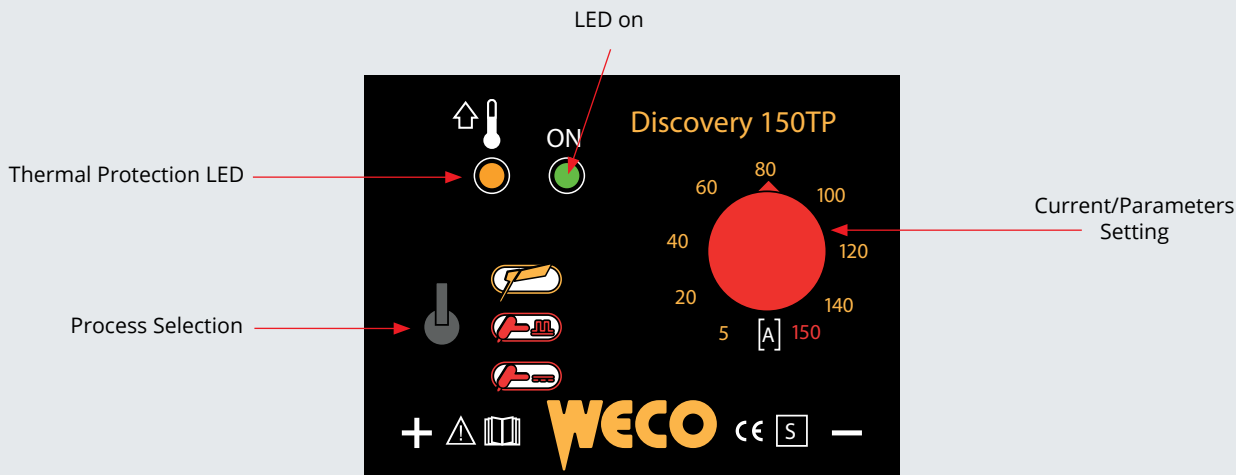

MMA - TIG DC LIFT

Discovery 150 TP is an innovative and robust inverter power source for MMA welding and TIG DC.

Discovery 150TP is specifically designed for basic maintenance and building construction.

Special functions include, Hot Start, Arc Force and Anti Sticking that helps the user to make quality welds every time, even when using up to 3.25mm diameter electrodes.

SUITCASE

GENERATOR FRIENDLY

A solid industrial activity, where the production is based on substantial investments for the supporting of research, projection and continuous testing.

Since 1997 Weco has been producing and selling welding machines.

Both registered office and production plant are based on the north east of Italy. Our offices, technical/project department, production and warehouse are able to serve both our national and international sales net. A wide range of welding machines together with a huge stock, allow us to encounter and fully satisfy our customers' requests in short time.

A dynamic management supported by solid experience on the main sales' arguments and a deep knowledge on the application issues, allow this company to be ahead in the welding sector.

WECO means better solution for improving the production, optimizing the intervention time, minimizing the processes' costs, with the highest perform-standards granted.
